Subject: Jackie's Home and Doing Fine

Friends:

I want to thank all of you for your good wishes, thoughts and prayers for Jackie. She had successful surgery yesterday and the surgeon was very pleased with the results. Jackie came out of it strong, with the relatively minor discomfort from the surgery fading quickly. She's been pretty perky, has good appetite and was released from the hospital early this morning. So, she's home, through this phase and looking forward to healing.

We have been fortunate to have access to top quality health care and very fortunate that her cancer was found early enough to treat it normally. I really appreciate the kind outpouring of support and concern. Thanks so much.

Dan
