zip code+4	It is PG&E's response to Questions 10 through 14 providing system wide data on customer accounts by digit areas; and for Questions 10 through 14 for the City and County of San Francisco requested in 15. Also attached are PG&E's responses to Questions 16 and 17.
	ave any questions, please let me know. We would be glad to walk you through the attachments including a presentation of the results.

	PG&E's Response to Data Request re: Customer Accounts by Zip Code+4 Digit Areas
>	
> Hi Mattl >	new,
code+4 dig Francisco	It is PG&E's response to Questions 1 through 9 providing system wide data on customer accounts by zip git areas. Also attached is PG&E's response to Questions 1 through 9 for the City and County of San requested in Question 15. We will provide our response for the remaining questions as soon as
possible. >

> Sid,
> Could PG&E please provide the following data by July 20<x-apple-data-detectors://4>?
> 1. Total number of active accounts in PG&E service territory
> 2. Total number of active accounts broken into Commercial, Industrial, and Residential customer classes
> 3. Total number of Zip Code+4 digit areas in PG&E service territory
> 4. Number of Zip Code+4 digit areas containing 15 or more active accounts (+ % of total)
> 5. Number of Zip Code+4 digit areas containing 10 to 14 active accounts (+ % of total)
> 6. Number of Zip Code+4 digit areas containing 5 to 9 active accounts (+ % of total)
> 7. Number of Zip Code+4 digit areas containing 3 or 4 active accounts (+ % of total)
> 8. Number of Zip Code+4 digit areas containing 2 active accounts (+ % of total)
> 9. Number of Zip Code+4 digit areas containing 1 active account (+ % of total)
> 10. Number of Zip Code+4 digit areas containing 1 active account with usage that exceeds 15% of the total
usage for the area.
> 11. Number of Zip Code+4 digit areas containing 1 active account with usage that exceeds 25% of the total
usage for the area.
> 12. Number of Zip Code+4 digit areas containing 1 active account with usage that exceeds 50% of the total
usage for the area.
> 13. Number of Zip Code+4 digit areas containing 1 active account with usage that exceeds 75% of the total
usage for the area.
> 14. Number of Zip Code+4 digit areas containing 1 active account with usage that equals 100% of the total
usage for the area. (A graph might accomplish #s10-14 effectively)
> 15. To narrow the search from the whole service territory to urban centers, please repeat 1-15 for the City and
County of San Francisco.
> 16. Please explain other filters or screens available in the active account database. Please provide a list of
available alternatives to Zip Code+4 built into the IOU's database of active accounts. For example, can the
database filter by county, city, census track, block number area, zip code, area code, etc.?
> 17. To assist the Commission in understanding the database of active accounts and how customer energy usage
data is organized, please provide a slice of the database in excel format. The slice should include all available
fields and include at least 10 active accounts. If anonymizing the information eases or expedites a response, please
do so.
> If you have any questions about this data request, please let me know at your earliest convenience.
> Thank you,
> Matthew
