Subject: Request of the Division of Ratepayer Advocates (DRA) for an Extension of the Protest
Period on Pacific Gas and Electric Company (PG&E) Advice Letter (AL) 4087-E

Dear Ms. Serizawa and Mr. Cherry:

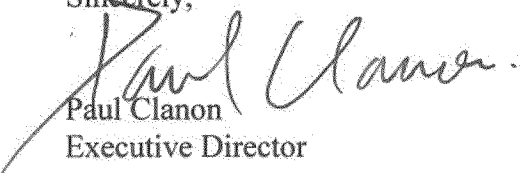

In a letter dated August 3, 2012, DRA requested an extension of the protest period on PG&E's AL 4087-E. PG&E filed AL 4087-E on July 17, 2012 to record its revenue requirements associated with the solar photovoltaic program approved by Decision (D.)10-04-052. According to General Order 96-B, protests on the advice letter are due by August 6, 2012.

DRA requests that the protest period be extended one week, until August 13, 2012. DRA's letter states that its legal representatives need more time to fully understand the guidelines of D.10-04-052 and the legal ramifications of PG&E's request.

DRA's request for an extension of the protest period is granted. No one will be disadvantaged by a one week extension of the protest period. Protests on PG&E's AL 4087-E shall be due on August 13, 2012. PG&E's reply to any protests shall be due on August 20, 2012.

Within 2 business days of receipt of this letter, PG&E shall serve a copy of this letter on all persons who received a copy of AL 4087-E. Service may be done by email.

Sincerely,

Paul Clanon
Executive Director
