Subject: RE: R.12-06-013 - Res Rate OIR Aug 27 Workshop - Panel Invitation

Hello Utilities,

Thank you for working together on your panelist coordination. The expectation is that for each of the 4 panels you will collectively choose ONE person to represent ALL utilities. You may choose a different person (and different utility) for each panel. This by no means precludes any other participants from making comments or asking questions during the general discussion. The panelist you choose should speak for 3 minutes (no slides) and offer opening remarks on the question proposed for the scope of the OIR proceeding. They can comment and refine the questions and suggest additional questions.

Thank you again and we look forward to seeing you at the workshop.

Hello Todd:

Eric Wright will represent Bear Valley Electric Service at the Aug 27 Workshop. BVES declines to be on the panel.

Regards,

Quan

Hi everyone—looping a few more folks in on Gabe's note below.

From looking at some notes, it looks like the plan is for SDG&E to be on the panel for Section 1, SCE for Sections 2-3, and PG&E for Section 4.

Tom Brill is the panelist for SDG&E on section 1. If folks from SCE/PG&E would like, they can send me the name of the panelist for their respective sections and I am happy to send a note to Gabe with all of the panelists.

Last, we should all keep the folks on Gabe's cc list in the loop with draft materials going forward and involved in any coordination calls occurring prior to the workshop. Thanks.

Todd

Hello,

Just checking in if you have made any decisions about coordinating utility panelists for this workshop. Please update me. We're trying to finalize panelists by the start of next week. Also, if you could consult with PacifiCorp, Bear Valley Electric and California Pacific Electric Power Co regarding their participation that would be appreciated.

Thank you.

Gabe

Subject: R.12-06-013 - Res Rate OIR Aug 27 Workshop - Panel Invitation

Dear PG&E, SCE, and SGD&E,

Please forward to the appropriate people in your organization.

This a heads up that we have set August 27th as the date for the 1st R.12-06-013 Residential Rate Structure OIR. A draft agenda is attached. The purpose of this scoping workshop is to develop the preliminary list of questions for the OIR. It will not be a substantive discussion of

the response to the questions. That will come later in the proceeding. We have structured the draft agenda around four sections drawing directly from the question posed in the OIR with some additions. These sections are:

- 1) Goals of Retail Rate Design
- 2) Rate Design
- 3) Equity Concerns
- 4) Coordination

During the workshop participants will be asked to comment on the initial set of questions: are these the right questions, are there additional questions, etc. For each section of the agenda we are inviting parties to select one representative of their collective interest group to provide 3 minutes of opening comments on the questions. So we are asking the IOUs to coordinate IOU participation in the workshop by choosing one panelist to provide initial comments on each section. You can choose a different panelist for each section if you like. We are asking other interest groups to follow the same protocol (i.e. TURN and DRA will choose one representative to collectively represent them on each pane.) We are not planning to have presentations or slides in this workshop as the emphasis is on discussion and dialogue. We are keeping these opening comments to 3 minutes to allow ample time for audience participation and email questions from remote webinar participants.

Please let me know if you have questions about this format and let me know if the IOUs have chosen panelists.

Thank you.
