Subject: RE: ARMY RFP for alternative energy

Brian,

I have been working with Gensler and others for over a year on the concept and more recently the RFP. (The Assistant Sec. heading this is a long time friend who I know is deeply committed to this project.) Basically the Army has concluded (Navy and Air Force now coming aboard I think) that Army facilities around the country are vulnerable when they do not have a good percent of their power off the grid, that is renewable (solar, wind, geothermal....also CHP).....some want 20 to 40 megawatts per base....aggressive is net Zero.

The funding is \$7 to 9 billion of equity/debt. Government 30 year PPAs.

Gensler (with whom we are partnering on this) is organizing teams to go after these. The qualifying submittals are due next month. I know Gensler is looking for additional team members that have experience as owner and operating of wind or solar....maybe CHP.

If there is an interest, I can put you in contact with the senior person at Gensler.

Les

Is PGE or one of its affiliates focused on the Army RFP for renewable energy? If so, we should talk. Working with a group forming to go after that. Good contacts.
