Subject: RE: rate forecasting

Ed, we'd be happy to, and it's a great idea – thanks for reaching out. We'll send some suggested dates to you next week when we've had a chance to compare schedules. Should we work directly with you to schedule, or with Doris or someone else?

Best –

Trina

Ed – finally, something I can help out with as it is more within my control. Yes, absolutely. I think that is a great idea. I'm cc'ing Amrit (in charge of rates) and Trina (in charge of Amrit).

Subject: rate forecasting

Brian,

As you may be aware my folks have been working on a long term rates forecasting project (I think there have been a number of data requests to PG&E). It is very important to me that we

get this right so the next step I would like to pursue is to compare the draft we have with what the utilities have been telling Legislatures, the Governor, etc. about what you are forecasting. To that end, I would like to set up a time for PG&E to bring in the right people to meet with me and our rates team and hopefully give us the same presentation PG&E has given to Legislators on rates.

Can we make that happen in the next few weeks? Thank you.
