Subject: RE: Brightsource

Hi Jason,

The current contractual date for guaranteed commercial operation date (GCOD) is 7/1/2013 for
Solar Partners II (Ivanpah Unit 1) and 12/31/2013 for Solar Partners VIII (Ivanpah Unit 3).
When Ivanpah 1 and 3 were originally filed in AL 3548-E on 5/13/2009 and approved by
resolution E-4266 on 8/21/2009, their GCODs were 1 year earlier than they are now: 7/1/2012
for Ivanpah 1 and 12/31/2012 for Ivanpah 3. Amendments were filed in AL 3703-E on 7/7/10,
and approved by resolution E-4369 on 12/1/10. These amendments (among other changes)
moved their GCODs back by one year to their current GCODs of 7/1/13 and 12/31/13. To date
there have been no other extensions of the GCODs.

Any information we have concerning the expected COD is confidential and should not be

communicated to the reporter.

Please call me if you would like to discuss.

Thanks!

Meredith

Hi Meredith,

We have a reporting asking when Brightsource's Ivanpah 1 is expected to come online. The reporter has a resolution from us approving your contract saying 2012. The PDSR we have for PG&E says July 1, 2013. The resolution we have approving the contact for SCE says September 30, 2013.

Was the COD changed for the project from 2012 to 2013? In addition, what is the day that the project is expected to COD?

Thanks,

Jason L. Simon, CFA
