Subject: RE: potential CPUC additional site visits in PG&E service territory

Hi Erik,

Thank you for the call and making the tour inquiries we just discussed. I had a look at our calendar and want to list some specific dates for you to work with.

Sep 28, Oct 12, and Oct 19 are all Fridays that seem relatively open for us. I look forward to hearing from you.

Regards,

Patrick

Hi Erik,

I will be busy this afternoon attending hearings but I certainly would like to speak to you soon.
Does anytime Thursday or Friday work?

Thank you,

Regards,

Patrick

Patrick,

I'd be happy to help. I got a message yesterday to call you and I've been meaning to follow-up. Gateway is probably the best bet if you want to tour a relatively new CCGT facility. It's an easy drive and located in Oakley. Let's chat. I'm tied up tomorrow morning, but could call you at 1:30 or 2:00 if that would be convenient.

Erik

Subject: potential CPUC additional site visits in PG&E service territory

Greetings Erik,

Having enjoyed our tour of the PG&E GCC, Vacaville substation, and solar PV installation, the Generation and Transmission Planning team is interested in a possible additional site visit to a generating facility (such as CCGT or a recently installed CHP) somewhere in PG&E's service territory. Patrick Young is a new addition to our team, and is going to coordinate the next potential tour. This e-mail is to make the introduction, and start ideas flowing – Patrick has collected some initial thoughts from our team.

If another PG&E contact is more appropriate, please feel free to forward. Many thanks for assisting us with this.

With regards,

Rachel
