Subject: Follow-up on issue with RAM2 Excel bid form

Sandy and Charles,

After reviewing the issue that SunEdison brought to the Commission's attention involving the calculation error with PG&E's Excel bid form for RAM2, we ask that PG&E and the Independent Evaluator jointly **notify the PRG via e-mail of this issue today, Friday, August 24, 2012.**

This notification to the PRG should include the following:

- (1) Establish that PG&E's Bidding Protocol required bidders to fill out this Excel bid form,
- (2) A description of the problem identified with the Excel bid form,
- (3) An overview of how this error with the Excel bid form may have resulted in inaccurate data and its potential impact on bid evaluation,
- (4) An attestation from PG&E that they have notified any bidder with whom PG&E seeks to execute a RAM PPA of this error before execution of the PPA, and
- (5) A statement of whether or not PG&E and/or the IE believe this error had any material impact on the RAM2 RFO, including the ranking and selection of bids.

Let me know if you have any questions or would like to discuss this before notifying the PRG.

Thanks,

Adam Schultz
