Thanks Matt. That makes sense to be mailed soon. It could be mailed on August 13 or 14 and still make the Sept. 13 biz meeting.

Hi John. The PD will mail very soon, within a week I think.

I Also look forward to the 8.20 into to your noi. Thx

Matt-

I realize that this is Sepideh's case but also know that she is out of the office. Perhaps you may know the status of the proceeding. It is application 10-01-014. Your Commissioner issued a scoping memo back on March 6 that had a timetable showing a Commission decision on August 31. Since there were hearings and given today's date, the soonest agenda that it could be acted upon is September 13. Bob Barnett is the Judge (I understand that ALJs are now referred to only as Judges). Could you find out the status and get back to me? That would be greatly appreciated.

Also as a reminder, our 2014 GRC project manager, Shelly Sharp, and I are meeting with Sepideh and (I assume) you on August 20 to present the contents of our NOI that we tendered back on July 2. Looking forward to seeing you then.
