Generation includes PG&E's total cost of energy. Approximately 2% of your energy is provided by the Department of Water Resources (DWR) and collected by PG&E as DWR's agent. In 2012, DWR will return \$303 million to bundled service customers. The average amount returned for each kilowatt hour (kWh) of energy usage provided by DWR is projected to be 25.056 cents, and offsets other generation charges in this bill. DWR also collects the Power Charge Indifference Adjustment component of the Cost Responsibility Surcharge from Community Choice Aggregation, Direct Access and Transitional Bundled Service customers.

The rates shown above are applicable to bundled service customers. Direct Access and Community Choice Aggregation customers pay only a portion of these rates. Please see the appropriate rate schedule for the applicable charges.
