Re: PG&E's 2010 Electric Rule 20A Allocation

Dear Mr. Clanon:

This letter serves to advise the Commission of PG&E's 2010 electric underground conversion allocation. This allocation data is submitted in accordance with Ordering Paragraph 6 of Commission Decision No. 73078.

Pursuant to Section A of PG&E's electric Rule 20, we are allocating a total of \$81 million credits for 2010. These credits are to be used by cities and counties to plan Rule 20A projects. The allocation is the sum of the following:

- \$46.9 million credits (1990 allocation) as agreed among PG&E, the League of California Cities, and the County Supervisors Association of California as part of the "Three-Year Plan";
- \$34.1 million credits distributed by applying the "50/50" allocation formula as directed by the Commission in Decision No. 90-05-032.

The 2010 allocation for each city and county is shown in the attachment. PG&E's total conversion allocations since 1968, including the 2008 allocation, total \$1.811 billion credits.

Please contact Redacted, if you have any questions regarding the 2010 allocations.

Sincerely,

Redacted

Manager, Regulatory Relations
