Subject: Re: PG&E's Response to Data Request re: Customer Accounts by Zip Code+4 Digit Areas

Matthew,

Please replace Attachment 8 with this file. The one I sent previously inadvertently contained customer phone numbers.

Thank you

>
> Could PG&E please provide the following data by July 20<x-apple-data-detectors://4>?
>
> 1. Total number of active accounts in PG&E service territory 2. Total
> number of active accounts broken into Commercial, Industrial, and
> Residential customer classes 3. Total number of Zip Code+4 digit areas
> in PG&E service territory 4. Number of Zip Code+4 digit areas
> containing 15 or more active accounts (+ % of total) 5. Number of Zip
> Code+4 digit areas containing 10 to 14 active accounts (+ % of total)
> 6. Number of Zip Code+4 digit areas containing 5 to 9 active accounts
> (+ % of total) 7. Number of Zip Code+4 digit areas containing 3 or 4
> active accounts (+ % of total) 8. Number of Zip Code+4 digit areas
> containing 2 active accounts (+ % of total) 9. Number of Zip Code+4 digit areas containing 1 active account (+
> % of total) 10. Number of Zip Code+4 digit areas containing 1 active account with usage that exceeds 15% of the
> total usage for the area.
> 11. Number of Zip Code+4 digit areas containing 1 active account with usage that exceeds 25% of the total
> usage for the area.
> 12. Number of Zip Code+4 digit areas containing 1 active account with usage that exceeds 50% of the total
> usage for the area.
> 13. Number of Zip Code+4 digit areas containing 1 active account with usage that exceeds 75% of the total
> usage for the area.
> 14. Number of Zip Code+4 digit areas containing 1 active account with
> usage that equals 100% of the total usage for the area. (A graph might accomplish #s10-14 effectively) 15. To

narrow the search from the whole service territory to urban centers, please repeat 1-15 for the City and County of San Francisco.

> 16. Please explain other filters or screens available in the active account database. Please provide a list of available alternatives to Zip Code+4 built into the IOU's database of active accounts. For example, can the database filter by county, city, census track, block number area, zip code, area code, etc.?

> 17. To assist the Commission in understanding the database of active accounts and how customer energy usage data is organized, please provide a slice of the database in excel format. The slice should include all available fields and include at least 10 active accounts. If anonymizing the information eases or expedites a response, please do so.
