Subject: Post Joint-IOU Meeting with Energy Division on Procurement Database

Dear IOUs,

In response to the discussion we had earlier today, I have consulted with our subject matter experts and put together an excel spreadsheet template that contains all the necessary data for the short-form database template submission by the IOUs. Please take a look and let's discuss in a weeks time as to (late next week) have everyone on the same page before a formal data request at the end of August. Please coordinate and let me know a date/time that works for you to meet.

For everyone's benefit and for clarity purposes the dates we have in mind are as follows:

By **August 31, 2012**- The formal data request (short form template attached in this email) is sent to the three IOUs. Also the IOU feedback/changes/comments on the "Database Object Worksheet Data Request 7.9.2012.xls" are due.

**October 1, 2012:** The short form template is due back to the CPUC with real data, not mock data as in the previous data request, tracking five years of historical data with the most current prices in the pricing columns. The IOUs will provide all contracts that expired between 2007-2012. PDSR values from August report will be fine for this portion of the data requests. Upon the receipt of the short-form data, the CPUC will review and determine the need for any additional data/fields for data integration and integrity. The CPUC will then communicate with

the IOUs on the need for additional data/fields etc that are needed to complete the data request.

**November 30, 2012:** CPUC-IOU Secondary Data check for integrity and integration.

**December 31, 2012:** Final data request due pending discussion from the October and November deadlines.

We can discuss the timeline above in detail in our next meeting and I'll type up a more structured version of the timeline when I submit the data request at the end of August.

I wanted to thank everyone for their hard work and I look forward to working with you in regards to the procurement database.

Cheers,

Cem,
