Subject: Re: how much of PG&E's HCA system is currently piggable in %?

Current HCA miles = 2088

Current piggability of HCA miles = 27.19%

Total number of transmission miles depends on definition. We have about 6500 miles that operate above 60 psig. About 5800 miles under DOT definition.

Laura can get the specific number but roughly we have about 2000 miles HCA out of 7000 miles.

Also, remind me, what percentage of system is HCA vs. non-HCA and total miles?

Thanks.

Michelle

It has increased of late. Let me check.

Laura – check with Jesus Soto.
