**Subject:** Gas Compressor Station GHG

Greetings [Redacted]

I talked to you a couple weeks ago about the Gas Compressor GHG filing we had made last June and would love to get out before the end of the year, of course!

I'm happy to report that we reached an agreement with DRA, attached, with the DRA edits. Chris Warner is working with the DRA attorney and the ALJ (Mason) to put forward the idea that this could provide a basis for a PD and that the schedule might be able to be moved up a bit from the planned Oct 29 PHC. I don't know whether that is possible or how it might be received, but I did want to keep you in the loop.

I know this is pretty low on your list, but if you have any questions or even a reaction, please let me know.

Thanks

Laura
