Subject: Re: PG&E Cast Iron Pipe - Readiness? URGENT QUESTION

Laura. Can you run this down for Julie ASAP ? Also, can you determine what cost recovery mechanism we are using or will need ?

Brian, I've asked Jane Yura Frank's question, but I know she is out of the office, so could you look into this and let me know where PG&E stands?

Thanks

Julie

**Subject:** PG&E Cast Iron Pipe - Readiness? URGENT QUESTION

A question for today's Commission meeting:

To the best of your knowledge, is PG&E substantially ready to complete replacement of the 43 miles of cast iron pipe in San Francisco, if we are able to get the City to stand down from enforcement of its street paving ordinance?

In other words, does PG&E have the equipment and replacement pipe on hand, and the crews available, to commence this work immediately?

Thanks.
