Subject: FW: PV Program Year 3 Update

Hi Molly,

I called Mary Jo to follow up on this email and realized that Mary Jo is out through September. I wanted you to be aware of this update. We met with Mary Jo earlier this year to brief her on the year 3 projects and she requested that we notify her once the local site review process was complete, ministerial permits obtained and we were ready to move forward with grading.

Please let me know if you have any questions.

Thanks,

Meredith

Subject: PV Program Year 3 Update

Hi Mary Jo,

As we discussed during our meeting regarding PG&E's PV Program Year 3 Projects in May, I am providing notification that the local site review process under GO 131-D is complete for

West Gates (Fresno County) and Guernsey (Kings County). We have received all ministerial permits for these projects and plan to start grading. Grading for West Gates is scheduled to start on Monday. An updated presentation is attached.

Please let me know if you have any questions.

Thanks,

Meredith
