Subject: Follow-up from CPUC Workshop on Transmission Construction and Nesting Bird Issues

Dear Panelists:

Thank you for attending the August 30, 2012 CPUC Workshop on Transmission Construction and Nesting Bird Issues. We appreciated all of your Power Point presentations on nesting issues and solutions as well as the informative discussion and questions.

As a follow-up to the workshop, everyone agreed to provide comments on the solutions that were presented by the agency and utility representatives. Some panelists indicated that they would submit them within a week. However, it may not be possible for everyone at the workshop to meet that deadline. The CPUC would like to ask that comments be submitted by no later than September 14, 2012.

Please find attached:

- Sign-in sheet of workshop attendees including names, organizations, email addresses, and phone numbers
- Solutions chart for sharing comments along with some instructions for input

After we receive all of your comments, we will prepare a draft report on the workshop that would include a summary of the meeting discussions as well as a summary of the comments received on the solutions. In addition, we will outline other action items proposed by panelists including SCE's proposal for a workshop on interim legislative guidance, the California Fish and Game rulemaking process, and the proposed APLIC working group. After draft report preparation, the CPUC will send it out to the panelists for review and comments and then finalize the report. It will then be emailed to all the above addresses.

Let us know if you have any questions or concerns. The CPUC appreciates all of your time and efforts on this issue.

Best Regards,

Billie
