Subject: Re: PG&E's response -- email problems at CPUC - Energy Division Data Request Regarding Tehachapi

Bill - the follow up email came from [Redacted]. I will forward to you in case it didn't go through.

Thanks.

Hi [Redacted]

Thanks! Was there a file subsequent to this?

We have been having network problems with receiving external emails today and yesterday.

If you sent another file, it would be worth resending.

Thanks!

Bill Dietrich

Jason –

Apologies for the delay. Our team is working as quickly as possible to gather all the information and verify. Attached is PG&E's **DRAFT** response. Please note that we are still working on verifying some information (which may change from this draft) and have not completed our confidentiality review. We expect to submit our final response no later than 5:30 pm today. Please treat the entire draft response as confidential until the final response with its confidentiality matrix & declaration are submitted.

Please let me know ASAP if you have any concerns.

Thank you,

Redacted

Hi Redact,

Hope you are feeling better. Is your team almost done with the TRTP file? If not, just shoot over what you have and send the rest later on. We're working on it today with the CAISO.

Thanks,

Jason L. Simon, CFA

**Subject:** Energy Division Data Request Regarding Tehachapi

Jason and William –

PG&E is currently working on completing Energy Division's data request regarding Tehachapi Renewable Transmission Project. However, we are still waiting for some information from SCE regarding a few projects. Would it be possible for PG&E to submit this response tomorrow (assuming we get the necessary information from SCE later today or early tomorrow)?

Thank you,

Redacted
