Page 6-13, line 1 Additional Statement

Delete the first sentence on page 6-13 (under the heading pipeline replacement miles) and insert the following statement.

PG&E's supplemental response to OC-214, provided on January 6, 2012, indicates it cannot determine the number of transmission pipeline miles it replaced during the period 1998 to 2010 from its records. The following table shows the total number of miles installed on its system during that period, including miles installed to replace existing pipe.
