Subject: Request for Data

Meredith,

Hopefully you are person to ask this question to:

In an effort to see what RPS-eligible projects will come online by the end of 2012, I have been reviewing the CPUC's public database as well as the confidential PDSRs. In the attached excel file, I have generated a list of PG&E projects that are expected to fully or partially come online by the end of 2012. If PG&E RPS staff could please take a look at the list and provide any updates on the CODs, to the extent they exist, I would appreciate it. Please also include any projects (20 MW and up) that are expected to come online by 12/31/2012 that I may have missed.

A response by the end of next week would be great. Please let me know if you have any questions.

Thanks,

Marcelo
