

Gavin Newsom

Gavin Newsom has championed innovative public programs since first taking office in 1997.

As a member of the San Francisco Board of Supervisors, then as mayor of San Francisco and now as Lieutenant Governor of California, Newsom has been a visionary on issues of equality, the environment, homelessness and healthcare. Policies he has initiated and implemented have been duplicated in cities across the nation.

During his seven-year tenure as mayor, he led San Francisco to an economic recovery by making the city a center for biotech and clean technology, while attracting and then keeping start-ups. As mayor, he established aggressive goals to reduce carbon emissions, increase municipal energy efficiency and the use of alternative fuels.

In 2010, Newsom was selected the greenest mayor for a second year in a row. Shortly after he established the most stringent green building standards in America.

As Lieutenant Governor, Newsom continues his environmental work as a member of the State Lands Commission, protecting California's most precious natural resources while balancing use of lands, waterways and ports.

Friday, October 26, 2012
1:30 p.m. - 3:30 p.m.
CPUC Auditorium
505 Van Ness Avenue
San Francisco

GREEN ECONOMY PARTNERSHIPS
