Subject: Assm Hill at CPUC today

Good Morning Paul -

I suspect you have heard about this but Assm Hill, along with some San Bruno residents, will present comments during public testimony at the CPUC business mtg today on this issue. His staff have suggested that he will call on President Peevey to reopen the evidentiary hearings to determine how much PG&E should be fined and not allow PG&E to conduct negotiations behind closed doors.

Assm Hill is also attempting to get an informational hearing in the State Assembly on this issue which we are working to keep from happening. We believe it is more appropriate for the CPUC to conclude their review of the issue and not confuse things in the middle of the debate.

I will call Nick Z later this morning to discuss.
