I enjoyed having lunch with you last Thursday. You suggested we get together with Adam when he gets back from vacation to discuss PG&E's proposal to terminate the remaining UOG portion of the PV program (100 MW) and transfer the volumes to a competitive PPA solicitation. Could we tentatively schedule that meeting now before Adam returns? I'd like to get a time blocked out on our calendars. I could meet anytime on October 9<sup>th</sup> and am available from 10-12 or 3-5 on October 10<sup>th</sup>. Would either of those days work for you and Adam?

On a related matter, the announcement for our PV Program Forum on October 12<sup>th</sup> was sent to parties last Friday (email below). I understand that Energy Division has sent a representative to past Forum's and we would similarly like to have someone from ED there on the 12<sup>th</sup>. We plan to describe our proposed modifications to the PV Program, including our upcoming filing to terminate 100 MW of UOG. Could you let me know if you or someone on your team would

be willing to participate in Forum? It won't be a lot of work, but we would ask the ED representative to stand and make any introductory remarks that they choose to make.

Thanks again and I look forward to working with you, Adam and your team on RPS issues.

Erik
