Sounds great. Thanks for letting us know.

Sepideh and Marcelo,

Fong Wan, SVP of Energy Procurement, would like to meet with Commissioner Florio to discuss the issue of centralized capacity markets. As you know, PG&E has been in discussions with the CAISO and other utilities about the idea of establishing such a capacity market or some type of hybrid market to address reliability concerns and the so-called "Sutter problem." Also in attendance for PG&E would be Brian Cherry, Todd Strauss and myself.

I just wanted to let you know of our interest in having such a discussion and to inform you that Sally Cuaresma will follow-up with your office to propose scheduling such a meeting.

Best regards,

Erik
