Subject: RAM2 Bid Data

Hi Redacted

I am working on the CPUC's quarterly RPS Status Report that we issue to the Legislature. In that report, I plan to include some summary data from RAM2 (similar to what we included in our previous such report for RAM1, if you saw that). I am going to include the following tables, but will aggregate data and show statewide RAM program totals across all three IOUs.

I was able to get the data points for Executed PPAs from PG&E's AL 4114-E.

I thought it might be quicker/easier for the utilities to fill in the info regarding bids for themselves (blank columns below). I have that data, but it's not uniform in one format/easily sortable across all three IOUs.

Could you have someone fill these in for me for PG&E? Capacity of bids received by tech type / # of Bids by specific tech / # of Bids by capacity size range.

Thanks,

Adam

Table 4. Summary of Cumulative Capacity of Procurement Targets, Bids Received, and Executed PPAs Across All IOUs from Second RAM Auction

	RAM2 Capacity Target (MW)	Bids Received (MW)	Executed PPAs (MW)
Baseload	14	8	
Peaking As-Available	119	113	
Non-Peaking As-Available	14	20	

Table 5. Number of Bids and Executed PPAs by Technology Type Across All IOUs

	# of Bids	# of Executed PPAs
Solar PV		6
Wind		1
Geothermal		1
Bioenergy		-
Small Hydro		-

Table 6. Number of Bids and Executed PPAs by Capacity Size (MW)

Across All IOUs

Capacity (MW)	# of Bids	# of Executed PPAs
1-3		-
>3-5		-
>5-10		1
>10-15		1
>15-20		6
