Subject: PV Program Changes

Adam,

Attached is the summary of the two advice letters Gary and I discussed with you and Paul regarding termination of the PV Program. Please let us know what you think. In particular, we would like to get a sense of whether or not there is general support at the Commission for using the advice letter process to move the PV Program volumes into RAM. It seems to us like a bit of a stretch given OP 5 of the RAM decision, but we are flexible if that is the route you advise us to pursue.

I am out of the office this week, so please follow-up with Redacte or Gary if you need further information or would like to discuss.

Best regards,

Erik
