Advice No. 4411  
(U 904 G)

Public Utilities Commission of the State of California

**Subject: Annual Regulatory Account Balance Update for Rates Effective  
January 1, 2013**

Southern California Gas Company (SoCalGas) hereby submits for approval with the California Public Utilities Commission (Commission) revisions to its revenue requirement and rates effective January 1, 2013.

**Purpose**

This filing, made each year on or before October 15<sup>th</sup>, complies with the longstanding practice of updating SoCalGas' revenue requirement for projected year-end regulatory account balances as established in Ordering Paragraph 2 of Decision (D.) 94-12-052. This filing revises SoCalGas' rates to incorporate the projected 2012 year-end regulatory account balances in transportation rates effective January 1, 2013. In compliance with D.11-04-032, this filing also revises the Backbone Transportation Service rate effective January 1, 2013.

In addition, in compliance with SoCalGas' 2009 Biennial Cost Allocation Proceeding (BCAP) D.09-11-006 on Phase II issues, this filing revises SoCalGas' 2012 revenue requirement for Company-Use (CU) Fuel and Unaccounted For (UAF) Gas costs based on the updated Gas Price forecast as shown in Attachment D. Also, pursuant to D.10-04-034, SoCalGas provides details on the capital costs incurred to increase storage capacity at its Honor Rancho natural gas storage facility.

**Background**

The revenue requirement related to the regulatory account balances are amortized in rates over 12 months beginning each January 1<sup>st</sup>. It should be noted that the revenue requirement herein does not include other revenue requirement adjustments<sup>1</sup> expected to be authorized by the Commission for implementation in transportation rates effective January 1, 2013. SoCalGas will file an advice letter consolidating all Commission-authorized changes in its revenue requirement, and the related changes to its rates, at least three days prior to the January 1, 2013 effective date of such rates.

<sup>1</sup> For example, the 2012 General Rate Case (GRC) and Cost of Capital filing.

**Customer Rate Impact – Regulatory Account Balances****Total**

The SoCalGas transportation revenue requirement will decrease by \$105.3 million. The core and noncore customer revenue requirements will decrease by \$92.4 million and \$12.9 million, respectively, as a result of the regulatory account balance update.

Attachment B in this filing shows the Natural Gas Transportation Rate Revenue table summarizing the change in the regulatory account balances and authorized CU Fuel and UAF Gas costs and corresponding present and proposed rates. Attachment C shows a Summary of Present and Proposed Regulatory Account Balances while Attachments E and F show the calculation of the Pension Balancing Account (PBA) and Post-Retirement Benefits Other than Pensions Balancing Account (PBOPBA) balances to be included in 2013 rates. Attachments G and H show the supporting calculations of the minimum contributions made to the Pension/PBOP Trusts for 2012.

**Core Customers**

A \$92.4 million decrease in the core transportation revenue requirement reflects the amortization of the projected year-end 2012 regulatory account balances. The decrease is primarily due to an increase in the overcollected balance in the Core Fixed Cost Account (CFCA), a decrease in the undercollected balance in the PBA, and a decrease from an undercollected to an overcollected balance for the PBOPBA as described below.

**CFCA** – Pursuant to Advice No. (AL) 4287, SoCalGas was authorized to amortize in 2012 rates a CFCA overcollection of \$32.4 million. The projected CFCA balance for amortization in 2013 rates is \$58.6 million overcollected, representing a revenue requirement decrease of \$26.2 million.

**PBA** – Pursuant to AL 4287, SoCalGas was authorized to amortize in 2012 rates a PBA undercollection of \$75.7 million. The projected PBA balance for amortization in 2013 rates is \$38.6 million undercollected, representing a revenue requirement decrease of \$37.1 million. The decrease is primarily due to a decrease in the annual funding for the pension trust for 2012. The core revenue requirement allocation is \$34.5 million.

**PBOPBA** – Pursuant to AL 4287, SoCalGas was authorized to amortize in 2012 rates a PBOPBA undercollection of \$17.4 million. The projected PBOPBA balance for amortization in 2013 rates is \$7.9 million overcollected, representing a revenue requirement decrease of \$25.3 million. The decrease is primarily due to a decrease in the annual funding for the PBOP trust for 2012. The core revenue requirement allocation is \$23.5 million.

The major components of the core revenue requirement increase are as follows:<sup>2</sup>

---

<sup>2</sup> Amounts shown include franchise fees and uncollectibles.

| <b>Description</b>                    | <b>Core Revenue Requirement<br/>Increase / (Decrease)<br/>(in millions of \$)</b> |
|---------------------------------------|---|
| CFCA                                  | (26.2)  |
| PBA                                   | (34.5)  |
| PBOPBA                                | (23.5)  |
| Other Regulatory Accounts - net       | (8.2)   |
| <b>Total Core Revenue Requirement</b> | <b>(92.4)</b>   |

#### Noncore Customers

A \$12.9 million decrease in the noncore transportation revenue requirement reflects the amortization of the projected year-end 2012 regulatory account balances. The decrease is primarily due to a decrease from an undercollected to an overcollected balance in the Noncore Fixed Cost Account (NFCA) and a decrease in the undercollected balance in the PBA as described below.

NFCA – Pursuant to AL 4287, SoCalGas was authorized to amortize in 2012 rates a NFCA undercollection of \$2.5 million. The projected NFCA balance for amortization in 2013 rates is \$5.8 million overcollected, representing a revenue requirement decrease of \$8.3 million.

PBA – As discussed above, SoCalGas projects a revenue requirement decrease of \$37.1 million. The noncore revenue requirement allocation of this decrease is \$2.6 million.

The major components of the noncore revenue requirement decrease are as follows:<sup>2</sup>

| <b>Description</b>                       | <b>Noncore Revenue Requirement<br/>Increase / (Decrease)<br/>(in millions of \$)</b> |
|--|--|
| NFCA                                     | (8.3)  |
| PBA                                      | (2.6)  |
| Other Regulatory Accounts - net          | (2.0)  |
| <b>Total Noncore Revenue Requirement</b> | <b>(12.9)</b>  |

#### Revision to the BTS Rate

On April 14, 2011, the Commission issued D.11-04-032 adopting operational modifications to the Firm Access Rights (FAR) Update Proceeding to reduce scheduling uncertainty and improve operations of the FAR system, including renaming the FAR service tariff from the current G-RPA (Receipt Point Access) to G-BTS (Backbone Transportation Service) and

renaming the Firm Access Rights Balancing Account to the Backbone Transmission Balancing Account (BTBA).

Pursuant to AL 4287, SoCalGas was authorized to amortize in 2012 rates a BTBA overcollection of \$9.9 million. As of December 31, 2012, the BTBA is projected to have an undercollected balance of \$14.4 million, representing a BTS revenue requirement increase of \$24.3 million. The calculation of the proposed BTS rate for 2013 is detailed below:

| <u>Revision to BTS Rate</u>            | <u>Present</u>       | <u>Proposed</u>      |
|--|----------------------|----------------------|
| Unbundled BTS Revenues w/FFU (\$000's) | \$135,000            | \$135,000            |
| BTBA w/o FFU (\$000's)                 | (\$9,890)            | \$14,351             |
| FFU Rate                               | 1.0173               | 1.0173               |
| BTBA w/ FFU (\$000's)                  | (\$10,061)           | \$14,598             |
| BTS Revenue w/FFU (\$000's)            | <u>\$124,939</u>     | <u>\$149,598</u>     |
| <br>BTS Demand Dth/Day                 | <br>3,100,000        | <br>2,977,946        |
| <br>BTS rate w/FFU \$/dth day          | <br><u>\$0.11042</u> | <br><u>\$0.13763</u> |

#### Environmental Fee Memorandum Account (EFMA)

The forecast of SoCalGas' regulatory account balances for update in rates effective January 1, 2013 does not include a forecast of the EFMA. However, on September 21, 2012 Commissioner Ferron issued an Alternate Proposed Decision<sup>3</sup> approving SoCalGas' request to amortize in rates AB 32 implementation fees recorded in the EFMA as filed in Application (A.)10-08-022.<sup>4</sup> Pending approval of the Alternate Proposed Decision by year-end, SoCalGas will include the EFMA balance associated with the pre-2012 costs in its year-end Consolidated Rate Update advice letter for amortization in 2013 rates.<sup>5</sup>

#### 2012 General Rate Case (GRC)

The regulatory account forecasts provided herein do not reflect the impact of SoCalGas' pending 2012 GRC. SoCalGas plans to file a separate advice letter to revise the amortization of certain regulatory accounts impacted by the 2012 GRC, including the amortization of the GRC Memorandum Account.

#### Revenue Requirement Change in CU Fuel and UAF Gas costs

Pursuant to the Settlement Agreement (Settlement) in SoCalGas' 2009 BCAP, the Commission authorized SoCalGas to update the underlying gas price used in determining the authorized costs for Other CU Fuel and UAF Gas. On an annual basis, SoCalGas would update the underlying gas price in the October filing using a forecast of Southern California border gas prices for the next year that is based on current futures prices.

As shown in Attachment D, SoCalGas forecasts the average gas price of \$3.61/MMBtu for 2013, a decrease of \$0.92/MMBtu from the \$4.53/MMBtu authorized for rates effective

<sup>3</sup> This was an Alternate Proposed Decision to Administrative Law Judge Long's Proposed Decision which denies recovery of the AB 32 implementation fees.

<sup>4</sup> A.10-08-002 was filed jointly by Pacific Gas & Electric Company, San Diego Gas & Electric Company, Southern California Edison Company, and SoCalGas.

<sup>5</sup> Administrative costs incurred in 2012 will be addressed in SoCalGas' 2012 GRC.

January 1, 2012. Based on this updated gas price forecast, SoCalGas proposes to revise its authorized costs for Other CU Fuel and UAF Gas to \$33.8 million, a decrease of \$8.6 million compared to the present revenue requirement as shown in the calculation below:

**Gas Price Impact (UAF, CU fuel)**

|                                   | <u>Present</u>  | <u>Proposed</u> | <u>Decrease</u>  |
|-----------------------------------|-----------------|-----------------|------------------|
| <u>UnAccounted For Gas (UAF):</u> |                 |                 |                  |
| System Volumes Mth/yr             | 9,613,583       | 9,613,583       |                  |
| % UAF (as % of end use)           | 0.892%          | 0.892%          |                  |
| UAF Volumes Mth/yr                | 85,753          | 85,753          |                  |
| Gas Price \$/dth                  | \$4.53          | \$3.61          |                  |
| <b>UAF (M\$)</b>                  | <b>\$38,832</b> | <b>\$30,959</b> | <b>(\$7,873)</b> |

**Company Use Gas: Storage Load Balancing**

|  |                |                |                |
|--|----------------|----------------|----------------|
| Volumes Mth/yr                                       | 3,647          | 3,647          |                |

|-----------------------------------|-----------------|-----------------|------------------|
| Total 2005 & 2006 (Mth)           | 8,453           | 8,453           |                  |
| Annual Average Volumes (Mth/year) | 4,227           | 4,227           |                  |
| Gas Price \$/th                   | \$4.53          | \$3.61          |                  |
| <b>Co Use Other (M\$)</b>         | <b>\$1,914</b>  | <b>\$1,526</b>  | <b>(\$388)</b>   |
| Total CU Fuel and UAF Gas Costs   | <b>\$42,397</b> | <b>\$33,802</b> | <b>(\$8,596)</b> |

**Honor Rancho Storage Expansion Project**

Pursuant to D.10-04-034, SoCalGas was authorized to increase the storage capacity at its Honor Rancho natural gas storage facility and establish the Honor Rancho Storage Memorandum Account (HRSMA) to record the revenue requirement for actual capital costs, excluding the cost of cushion gas, up to a maximum of \$37.4 million for this storage expansion.<sup>6</sup>

The decision's Conclusion Of Law (COL) 19 indicates:

*"The annual advice letter seeking rate recovery of amounts in the HRSMA should contain detailed documentation supporting the reasonableness of the actual costs of the Expansion Project, including the price paid for cushion gas and the quantity purchased, and copies of the advice letter should be sent to all parties to this proceeding."*

In compliance with COL 19, in AL 4287 SoCalGas submitted details on actual capital costs totaling \$35.2 million incurred for this Expansion Project through August 2011. SoCalGas

<sup>6</sup> On October 7, 2011, SoCalGas filed AL 4285 to establish the Honor Rancho Cost Recovery Memorandum Account (HRCRMA) to record the incremental costs associated with the Honor Rancho Storage Expansion Project that are in excess of the \$37.4 million cap.

submits the following details on actual capital costs incurred for the remaining \$2.2 million of the authorized maximum of \$37.4 million and the costs incurred for cushion gas:

| <b>Honor Rancho Expansion Project Cost Breakdown</b>   |                             |                             |                                     |                                   |           |
|--|-----------------------------|-----------------------------|-------------------------------------|-----------------------------------|-----------|
| (amounts shown in M\$)                                 |                             |                             |                                     |                                   |           |
| FERC Account   | Asset Account #352.25 Wells | Asset Account #353.25 Lines | Asset Account #356.25 Prf Eq & Wire | Asset Account #357.25 Other Equip | Total     |
| Total Costs per AL 4287<br>(as of August 2011)         | \$ 26,263                   | \$ 1,459                    | \$ 6,013                            | \$ 1,477                          | \$ 35,212 |
| Total Costs from<br>September 2011<br>through May 2012 | 1,382                       | 51                          | 298                                 | 457                               | 2,188     |
| Total Costs (HRSMA)                                    | \$ 27,645                   | \$ 1,510                    | \$ 6,311                            | \$ 1,934                          | \$ 37,400 |

The BCAP Expansion Project includes drilling, completion and connection of new wells, modification of the liquid processing system, and installation of new piping, pumps, controls, and electrical equipment. Liquid produced over the next few years will create space in the underground reservoir and thereby increase the working storage inventory capacity.

#### New Wells (FERC Asset Account 352.25)

SoCalGas has drilled, completed and placed into service one new liquid production well and two brine injection wells, and is in the process of completing a second liquid production well. Total costs as of May 2012 are approximately \$27.6 million for new wells.

#### Surface Equipment for Liquid Production and Processing (FERC Asset Accounts 356.25 and 357.25)

SoCalGas made several modifications and improvements to its existing liquid processing system to accommodate the increased fluid production. These process improvements include: internal modifications to four existing vessels and three tanks; the installation of several new pumps, new piping, process control and measurement equipment; and an upgrade to the existing electrical service including a new connection to the Southern California Edison power grid. Total costs of these plant upgrades as of May 2012 are approximately \$8.2 million.

#### Surface Pipeline Laterals to Connect Wells to Plant (FERC Asset Account 353.25)

Several pipelines and well laterals were installed and placed in service to connect the new wells to the plant's processing system, and new electrical systems were installed to operate the new production wells. As of May 2012, total costs of the field piping, well laterals, and well electrical equipment are approximately \$1.5 million.

#### Cushion Gas (FERC Asset Account 117)

The expansion of the gas gap in the reservoir to create 5.0 Bcf of additional working inventory will require an additional 1.5 Bcf of cushion gas. In October 2011, SoCalGas purchased the first 0.3 Bcf of cushion gas at a total cost of \$1.1 million.

**Protests**

Anyone may protest this Advice Letter to the California Public Utilities Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The protest must be made in writing and must be received within 20 days of the date of this Advice Letter. There is no restriction on who may file a protest. The address for mailing or delivering a protest to the Commission is:

CPUC Energy Division  
Attn: Tariff Unit  
505 Van Ness Avenue  
San Francisco, CA 94102

Copies of the protest should also be sent via e-mail to the attention Energy Division Tariff Unit ([EDTariffUnit@cpuc.ca.gov](mailto:EDTariffUnit@cpuc.ca.gov)). A copy of the protest should also be sent via both e-mail and facsimile to the address shown below on the same date it is mailed or delivered to the Commission.

1) These rates are for Natural Gas Transportation Service from "Citygate to Meter". The BTS rate is for service from Receipt Po int to Citygate.

2) These Transmission Level Service "TLS" amounts represent the average transmission rate, see Table 5 or detail list of TLS rates.

3) BTS charge is proposed as a separate rate. Core will pay through procurement rate, noncore as a separate charge.
