Subject: RE: COC: Exhibit 35a

[Redacted] I added some of our ECAPM estimates, as an example of how SCE would like to show it. Do you think we should add a graph in the CAPM tab, as well?

(See attached file: Exhibit 35A - Model Inputs DRAFT_SCE.xlsx)

Subject: RE: COC: Exhibit 35a

Ron,

We just spoke with Paul and Mihee at SCE regarding ECAPM and think the best way to clearly show the adjustment is to include the Alpha in a graph on the CAPM tab. Can you please let me know what is the correct Alpha for me to utilize for your ECAPM?

Thank you for your assistance,

Patrick

Good morning Ron,

Thank you for your email and corrections, as we want to ensure Exhibit 35A accurately reflects each party's inputs for the three models. I have several questions regarding your edits, and have used track changes and added comments in your word document to highlight these questions. Can you please review and confirm that the modified inputs are accurate?

Thank you for your assistance!

Regards,

[Redacted]

We have reviewed PG&E's draft and have some corrections that require only slight additional data display. Details in the attached Word doc.

Subject: COC: Exhibit 35a

Attached is a draft exhibit 35a, with text explaining the exhibit and
providing a number of qualifications, and the spreadsheet behind the
exhibit. We have attempted to pull the right data for the non-utility
parties in order to get a start on this, but the intention now is to have
each party review the form of this exhibit, and put in/review their numbers
(we have DRA's in, but not the other utilities). We intend to send a draft
to Ferron's adviser Colvin tomorrow just to check in with him and make sure
the form is what he's expecting, so it doesn't have to be perfected by
tomorrow. Please send any comments, filled-in spreadsheets back to us, and
we'll consolidate into one workbook. And please send to anyone I missed.

Email or call with any questions

Thanks
