**Subject:** RAM2 Bid Data

Hi [Redacted]

I am working on the CPUC's quarterly RPS Status Report that we issue to the Legislature. In that report, I plan to include some summary data from RAM2 (similar to what we included in our previous such report for RAM1, if you saw that). I am going to include the following tables, but will aggregate data and show statewide RAM program totals across all three IOUs.

I was able to get the data points for Executed PPAs from PG&E's AL 4114-E.

I thought it might be quicker/easier for the utilities to fill in the info regarding bids for themselves (blank columns below). I have that data, but it's not uniform in one format/easily sortable across all three IOUs.

Could you have someone fill these in for me for PG&E? Capacity of bids received by tech type / # of Bids by specific tech / # of Bids by capacity size range.

Thanks,

Adam

**Table 4. Summary of Cumulative Capacity of Procurement Targets, Bids Received, and Executed PPAs Across All IOUs from Second RAM Auction**

	RAM2 Capacity Target (MW)	Bids Received (MW)	Executed PPAs (MW)
Baseload	14	8	
Peaking As-Available	119	113	
Non-Peaking As-Available	14	20
