Subject: RE: Gas Compressor Station OIR

Hi Brian.

Yes, this matter is assigned to me but it is an application rather than an OIR. I am working on the decision (along with a couple of other matters) and will let you know when I get closer to an issuance date.

Things are well for me and my family. I've actually moved in with my Dad and am in the midst of trying to sell my condo.

Subject: Gas Compressor Station OIR

Bob – I hope things are going well for you and the family. I haven't been around the Commission much these days but next time I do, I'd love to drop by and say hello.

I've been told you are in charge of the Gas Compressor Station GHG decision. I know you have a lot on your plate right now, but do you have an estimate of when we might

see a PD ? I've been told we might see something by December 10 so that it can be voted out at the first meeting in January. Not sure that is factual so I thought I'd reach out to you. We begin booking costs January 1 and we don't have a memo account, so I'm worried about recovery given the retroactive ratemaking restrictions.

Also, I understand the application didn't go to hearings. If that is true, do you think it would be possible to reduce the comment period if December 10th isn't a feasible date ? Any insight would be helpful.

Ps. The December 20 PUC meeting is going to go all day....
