Subject: Picarro ride along Monday?

Good morning Sunil!

I just heard that you may have expressed interest in seeing the Picarro technology with Commissioner Simon this coming Monday.

If so, I'm confirming that Picarro and PG&E's VP of Distribution, Kevin Knapp, will be at the Commission at 10:00 am.

The vehicle holds only 4 people – as I understand it there will be a Picarro driver and a Picarro executive (Mike Woelk?) And then with Kevin along to explain how the technology may be used.

So it might take a couple trips as I think Bishu also is interested. The idea is to do about a 20-30 minute ride, as I understand it.

Let me know if you're interested and we'll call you when we get there on Monday morning.

Thanks

Laura
