Good grief! Thanks for letting me know. The prior work isn't a problem, but the new one would be. I'll need to get in touch with them.

Julie

Just a heads up: Sandy hartmann tells me we just signed a contract with BV, apparently relating to some demolition work.

I don't know any details yet but wanted to alert you.

Were you aware of this and does it raise any concerns? I also understand pge used them on some previous hydrotesting work.

Hope things go well in New Orleans.

Laura
