Subject: RE: SVTC

This is sad for California. Pres. Peevey would like to mention this in his Comr reports. Is this publicly-disclosable information? And are there any other details you can provide?

Thanks

Subject: SVTC

Scott,

We heard from SVTC that the project will be taken over by CNSE/PVMC in New York <http://www.uspvmc.org/> by the end of this week. They are completing their due diligence and hope to sign in the next few days. They were not able to find an investor or new owner for SVTC Solar here in California, SRI had no money and no State funds were available. CNSE will move the project to Albany and the State of New York will be contributing funding to the project. They mentioned that New York has invested \$14B into semiconductors and has set aside more funding for green energy.

While it is very disappointing to see the project move, at least it will continue.

Please let me know if you would like additional information and I can try to track it down.

Thanks,  
Meredith
