Subject: RE: potential CPUC additional site visits in PG&E service territory

Hi Erik,

I have questions from a colleague about the tour. He prefers to bring his own safety equipment, so what is required?

"I'd like to know if we have to wear those anti static clothes that PG&E required at the substation tour.

I assume they will give us hardhats, unless we bring our own.

Safety glasses?"

Thanks!

Regards,

Patrick

Hi Erik,

I have an updated roster of CPUC people attending the Gateway tour on Nov 13th.

William Dietrich

Kevin Dudney

Noushin Ketabi

Jack Mulligan

Rachel Peterson

Brian Stevens

Carlos Velasquez

Keith White

Patrick Young

Looking forward to the tour!

Regards,

Patrick

Yes. There is a cap of 10, including me.....so we are already at the cap with the current invite list. We can arrange for another tour at a different time.

Hi Erik,

Is there a cap on the number of attendees for this tour? We are considering inviting a few other people from Energy Division who might benefit from a plant tour.

Thank you,

Regards,

Patrick

Patrick,

We look forward to seeing you on November 13th. I will send you an appointment so that it is on our respective calendars.

For safety, clothing is long sleeves, long pants and sturdy shoes.

Parking is available around the administrative building, which is identified with a flag pole out front; we recommend carpooling best as possible due to limited parking.

The address is:

Gateway Generating Station
3225 Wilbur Avenue
Antioch, CA 94509

Best regards,

Erik

Hi Erik,

I hope you had a great weekend enjoying the warm weather.

I have confirmed:

William Dietrich

Rachel Peterson

Noushin Ketabi

Kevin Dudney

Patrick Young

Tentative:

Nathaniel Skinner

Carlos Velasquez

Robert Strauss

Keith White

Thank you for your patience setting this up, please let me know if you need anything else.

Regards,

Patrick

Erik,

I think we have critical mass here around November 13. Let's aim for a 10AM tour start, and we will just see Gateway. Please confirm.

Thank you!

Patrick,

I checked with the Gateway plant operators and unfortunately, neither of those dates work. How about November 6, 13, 29 or December 4? Of these dates, I can only make the 13th and 4th, but you don't need to work around my schedule.

Hi Erik,

I hope this note finds you well. How about November 2nd or 30th for scheduling the Gateway Tour ?

Thank you.

Hi Erik,

My apologies, we have a potential conflict on Sept 28th. Oct 12th looks like a better day for us

but I want to confirm with my colleagues. Does Oct 12th work for you? If not, we may be pushing this out to November. Sorry again about the back and forth.

Thank you.

I probably dialed wrong.

The Gateway tour would only be about one hour and the Oakley site visit could take an additional 30 minutes, so there is time to do something else. We can probably schedule Gateway for anytime on the 28th, depending on your preferences and whether or not we add the CHP visit.

Hi Erik,

I just checked my phone number. It is still good. You dialed wrong maybe?

Thank you for lining up this information and confirming a tour at Gateway. I have asked my

colleagues for feedback but it may be a few days before they get back to me. I think our highest interest will be Gateway, and the other facilities are extras. Is there a time of morning associated with our Gateway tour and how long will the tour take? Please hold off on scheduling the CHP until I hear back from my colleagues.

Thank you again!

Regards, Patrick

Patrick,

I just tried to reach you at 703-5357 and got someone else....not sure why. Has your phone number changed?

In any event, I'd recommend the following: Tour the C&H CHP facility in the morning located in Crockett; follow that with a tour the Gateway CCGT facility in Brentwood; follow that with a tour of the Oakley project site also in Brentwood. I think this would provide you with the most value for a one day tour.

I've confirmed September 28th for Gateway, but have not reached out to anyone at the C&H facility. I wanted to chat with you first to make sure this sounds good to you. You can reach me at 973-4464.

Hi Erik,

Thank you for the call and making the tour inquiries we just discussed. I had a look at our calendar and want to list some specific dates for you to work with.

Sep 28, Oct 12, and Oct 19 are all Fridays that seem relatively open for us. I look forward to hearing from you.

Regards,

Patrick

Patrick,

I'd be happy to help. I got a message yesterday to call you and I've been meaning to follow-up. Gateway is probably the best bet if you want to tour a relatively new CCGT facility. It's an easy drive and located in Oakley. Let's chat. I'm tied up tomorrow morning, but could call you at 1:30 or 2:00 if that would be convenient.

Subject: potential CPUC additional site visits in PG&E service territory

Greetings Erik,

Having enjoyed our tour of the PG&E GCC, Vacaville substation, and solar PV installation, the Generation and Transmission Planning team is interested in a possible additional site visit to a generating facility (such as CCGT or a recently installed CHP) somewhere in PG&E's service territory. Patrick Young is a new addition to our team, and is going to coordinate the next potential tour. This e-mail is to make the introduction, and start ideas flowing – Patrick has

collected some initial thoughts from our team.

If another PG&E contact is more appropriate, please feel free to forward. Many thanks for assisting us with this.

With regards,

Rachel
