Subject: Re: Capacity markets follow-up

Thanks, Eric. This is helpful.

Matthew,

During our recent capacity markets discussion, you asked for a list of existing flexible power plants with expiring PPAs. Attached is a document we pulled together last February in the context of the Sutter discussions. It has not been updated since that time and is subject to change. However, it should give you a feel for the units that might want to take advantage of the CAISO's risk of retirement backstop proposal.

We appreciated the opportunity to meet with you about capacity markets. Please let me know if you need any additional information.

Best regards,

Erik
