Subject: Energy Storage Workshops

Parties to R.10-12-007,

Please find attached the Use Case documents to be reviewed and discussed during Monday's workshop here at the CPUC.

If you cannot attend in person, the workshop will be available via phone-in and WebEx. Please see the CPUC Daily Calendar, Workshop Notices for info.

In addition, we would like to inform you:

After receiving feedback on the pre-read material sent out earlier this week, Energy Division staff is going to make a slight modification to the scope of Day 2 workshop session. Day 1 will focus on the Use Cases, as planned. For the Day 2 workshop, we would like to focus on (1) summarizing the work done to date and (2) reviewing next steps in the analysis for the remainder of the proceeding. This will help us develop an interim report planned for December and also help identify any additional analysis that we need to plan for in 2013.

Additionally, Energy Division staff wants to announce its plan to hold a workshop in early January to discuss the energy storage procurement targets. This workshop will cover energy storage procurement targets, with a specific focus on proposals that the Commission should consider as it evaluates these targets. Parties are invited to consider a variety of procurement options, including a) global procurement targets, b) application and end use specific procurement targets, and/or c) pilot energy storage procurement programs. This workshop will include a discussion of the process that the Commission should pursue to evaluate the scope and scale of energy storage procurement. Parties will be invited to provide formal presentations at this workshop that cover potential energy storage procurement proposals, and subsequent to this workshop, parties will be invited to submit formal comments in response to the proposals presented at the workshop. We will set-aside some time during the Day 2 workshop coming up to discuss the scope of January procurement target discussion to get feedback on how we can make it most effective.

With Regards,

Arthur O'Donnell

Senior Regulatory Analyst
