Subject: FW: Rate Reform - Informational Hearing in Fresno - January 18

Scott – I wanted to reach out to you and give you a heads up on an informational briefing Assm Olsen and Assm Perea are working on relative to rate design. They are looking to hold the briefing on January 18 in Fresno and want to invite President Peevey to participate. The DRAFT not yet public version of the agenda is below. Brian suggested I reach out to you directly on this to see if Peevey could be available to participate. We are sitting down with Assm's Olsen and Perea on January 3 or 4 to discuss further and outreach will be done soon for the other potential panelists. I suspect Assm Perea may be contacting Pres Peevey to discuss this issue as well as the potential for the CPUC to sponsor his yet to be introduced bill on the subject.

Interested in your reaction to this and the potential for Pres Peevey to participate.

Thanks

California Legislative Rural Caucus
Informational Briefing on Electricity Rates
in the Central Valley

-

Fresno City College, 1101 East University Ave, Fresno, CA

Friday, January 18, 2012
