Subject: Re: Energy Storage Workshops slides and immediate actions

Parties to the Storage Rulemaking,

Thank you all for your participation in our workshops on Energy Storage Use Cases and Policy

Options.

Staff appreciates all your effort and the valuable feedback, which we will do our best to incorporate into the

Upcoming Interim Report—as we discussed.

Sometimes it takes a little while for documents to get posted on the CPUC Storage web page, so please find attached the two slide decks used for the workshops.

KEMA will provide us with a link to their slide deck, and we'll share that with you when available.

We will hold off posting the Use Case documents until more complete versions are available; they will be added as Appendices to the Report.

Thanks, and a reminder:

Energy Division staff plans to hold a workshop in early January to discuss the energy storage procurement targets; most likely January 10, subject to confirmation of key participants schedules.

This workshop will cover energy storage procurement targets, with a specific focus on proposals that the Commission should consider as it evaluates these targets.

Parties are invited to consider a variety of procurement options, including a) global procurement targets, b) application and end use specific procurement targets,

c) pilot energy storage procurement programs, or market tests, and/or d) recommendations for other procurement proceedings.

This workshop will include a discussion of the process that the Commission should pursue to evaluate the scope and scale of energy storage procurement.

We'll issue guidance on the format and content well in advance.

Parties will be invited to provide formal presentations at this workshop that cover potential energy storage procurement proposals,

and subsequent to this workshop, parties will be invited to submit formal comments in response to the proposals presented at the workshop.

We will arrange for the workshop to be transcribed and request that it and any subsequent comments be incorporated into the record of the proceeding.

With Regards,

Arthur O'Donnell

Senior Regulatory Analyst

Grid Planning and Reliability

Energy Division

California Public Utilities Commission
