Subject: Very Belated Thank you

Laura,

Thank you so very much for meeting me for lunch last month. I feel so remiss taking this long to say "Thanks!" I enjoyed our visit, and I appreciate the advice (regarding High Speed Rail) and the kind words.

Also, I met Linda Connell from NASA's Risk Reduction program. She presented the program at Metrolink for the rail industry to consider. She was very informative and interesting.

I would love to have lunch again some time...at this rate, we can plan on 2014!

Thanks again,

Gina
