That's outstanding. Strong work, Evelyn! I'm sure everyone wants to know the answer.

If you don't hear back in an hour, you should reply all and ask for Tom to provide a job aid to everyone.

Team,

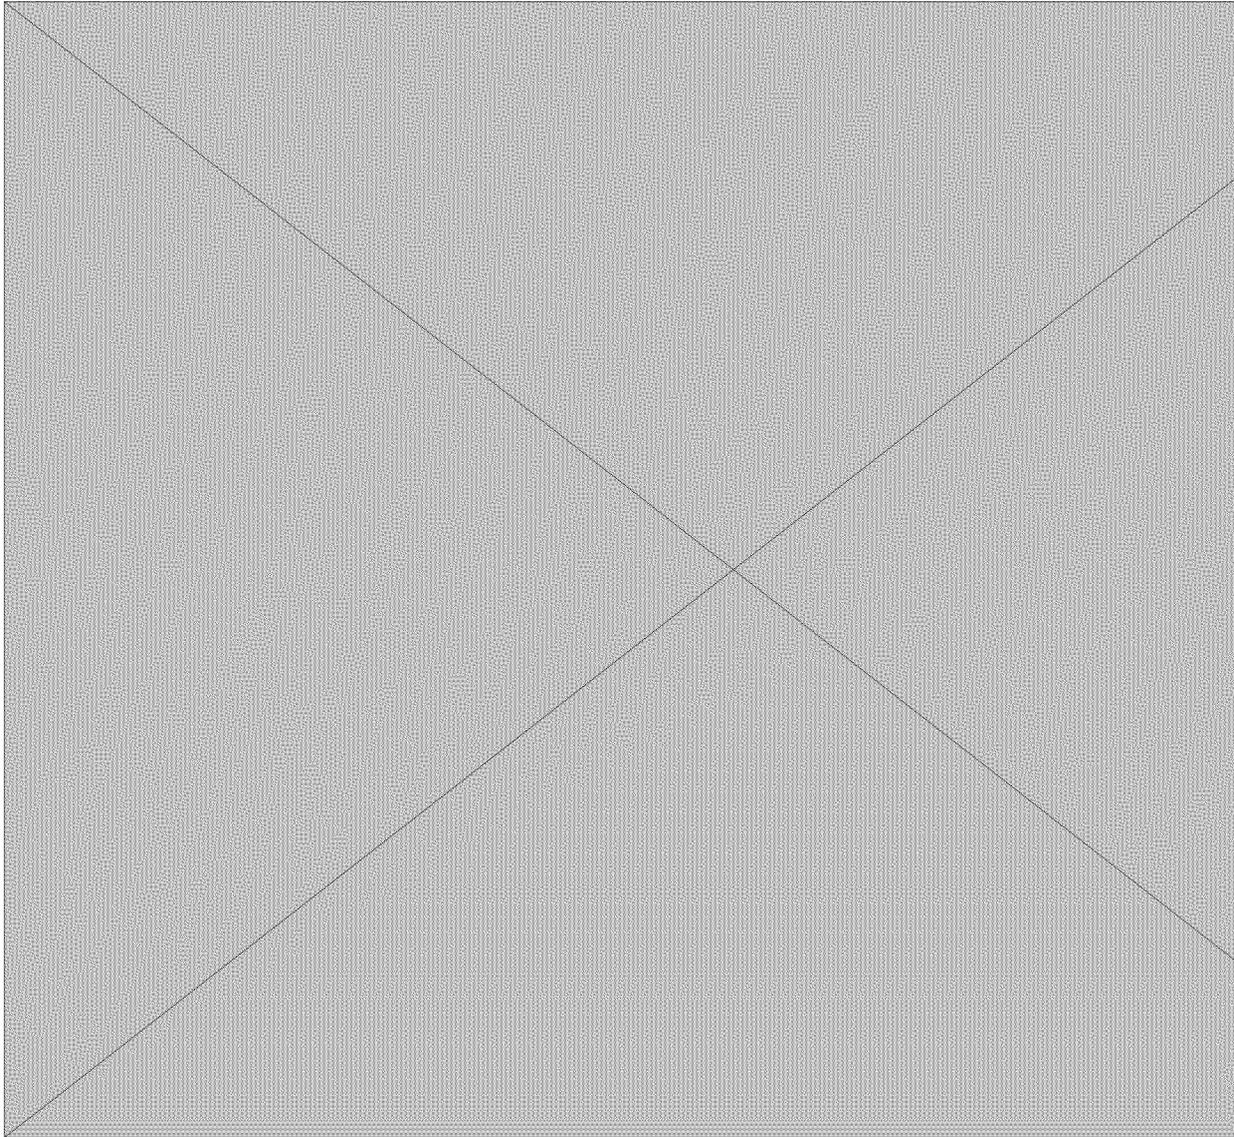

I feel so fortunate to work for a great company like PG&E with its wonderful healthcare benefits, which includes an excellent vision plan (i.e., new lenses every year, frames every other, etc.). Over the years I've accumulated several old pairs of glasses that are collecting dust in my desk or nightstand drawers, and maybe you have as well. If so, chances are you'll never re-use those old things. Why not take those old glasses and put them back to good use; and perform a life changing good deed at the same time?

Lions In Sight of California, a nonprofit 501(c)(3) corporation, is dedicated to bringing basic eye care and eyeglasses to a world of people in need by collecting used eyeglasses and recycling them for use in developing nations worldwide. Their mission is to provide no cost primary eye care to people in need living in economically disadvantaged countries. Lives are

diminished as vision is diminished. Children with poor vision struggle in school, limiting their opportunities to lead a normal, productive life. Adults lose productivity as their near vision predictably declines with age. Seniors lose their independence and dignity as they become increasingly reliant upon others for the simplest tasks. Imagine changing the future of children who otherwise couldn't keep up with school because they are unable to see the blackboard, or providing the miracle of sight to adults and seniors who have never owned a pair of glasses in their lives. Vision is such a huge part of being able to learn, work, and improve one's quality of life.

Energy Procurement, Law, and Regulatory Affairs are working together on an eyeglass collection drive, organized by Evelyn Lee. Please consider donating your old glasses to this worthy cause. Don't worry if they're not in perfect condition because the Lions Club will clean and repair them before providing them to their new, and very appreciative owners. For now, the donation box will be located in my office on the Ninth Floor – Room 909, 77 Beale – but maybe someone on the Tenth Floor might care to help with collecting donations.

Please let me know if you have any questions. Thank you in advance for your attention.

Regards,

Redacted
