Subject: RE: 33% Compliance Implementation - PCC Classification

Hello [Redacted],

I noticed that I referenced the wrong decision number in my prior email. Energy Division staff would like to have a conversation regarding the Portfolio Content Category Decision **(D.) 11-12-052**.

Sorry for the confusion.

Thanks,  
Robert

**Subject:** 33% Compliance Implementation - PCC Classification

Hello Lauren,

Energy Division(ED) staff are actively working to implement the Portfolio Content Category (PCC) classification rules established under SB2 (1x), and Commission Decision (D.) 11-12-020, and would like to get some IOU input in our process.

D.11-12-020 directs that :

“In order for Energy Division staff to make an effective compliance determination on procurement claimed by a retail seller for a particular portfolio content category, all retail sellers must provide to Energy Division staff documentation adequate to demonstrate that the retail sellers’ procurement in fact meets the criteria of the portfolio content category in which the procurement is claimed. For those categories in which multiple criteria must be satisfied, the retail seller's showing for the compliance determination must meet all relevant criteria set forth by the statute and implemented in this decision.”

Energy Division staff would like to schedule a conference call in order to discuss what information could be collected to constitute an “adequate demonstration” of PCC classification. Please let me know when you, and/or the representation for PGE, are available to discuss the directives of D.11-12-020 and PCC classification.

Thanks,
