Subject: RE: PU Code 910 Data Request Follow Up

Thanks for the follow-up. I will send out further clarification with respect to the questions about transmission and generation by mid-day tomorrow.

Subject: PU Code 910 Data Request Follow Up

Michele –

Per our conversation, I want to confirm what specific additional information we need to provide Energy Division in regards to the PU Code 910 data request questions 1g, 1h, 1i, and 5a. As you know, given the ambiguity in the legislation itself and the different approaches by each IOUs, this task becomes very challenging.

Based on our conversation and the approaches the other IOUs took to which you referred to, can you please send me an email clarifying what specifically you expect for those 4 questions (and if there are any other responses you feel are incomplete/misinterpreted)? We would like to have a better understanding of what type of information Energy Division is looking for.

PG&E is more than willing to work with Energy Division to get you the information you need. We tried to answer the questions as best we could, given the ambiguity and the short time, but there appears to be some confusion caused by the interpretation of the questions.

Once we get more clarity, I will work with our team to get you the all information you need as soon as possible. Just to forewarn you, given the holidays are coming up, we may not be able to provide an immediate response. Please let me know if you'd like to schedule a follow meeting/call with our team to make sure we are all on the same page.

Thank you,
