Subject: RE: Symposium

Bill, Jane and Julie,

I am unable to participate in the conference call on Friday as I will need to attend a funeral, however I have read the symposium deliverable and made some red mark revisions (attached) that I hope will be helpful when you talk.

I think the purpose of the symposium is to provide a dialogue among the California utility companies and the CPUC on useful metrics to measure public safety performance. This would be accomplished through panel discussions. At the end of the symposium, the panels should identify a list of best metrics that they believe best measure public safety performance (6-10). The list can later be used by the utility companies and the CPUC in the development of a final list. (I don't know procedures that CPUC would have to follow in committing to the final list.) The final list of metrics would then be reported by the utilities to the CPUC where they would be public. One mechanism for reporting the data would be through the annual report. It would be envisioned that the data could then also be considered by the utilities and the CPUC in rate making matters.

Take a look at my attached revision, it reflects my comments above.

Thanks, Bob

Jane/Julie-I have attached 2 documents for your review; 1. A draft relating to the meetings purpose and 2. A list of things we need to get done. Please review in advance of our telco if you can. Jane I had originally suggested to Julie that we try to do this call about 9AM PT on Thur. the 13th. However, in the interim my Mother has developed some problems that I need to attend to so I will be flying to Houston tomorrow and will return on Thur. the 13th. If possible I would prefer if we could move the call to the 14th (Fri.) anytime that would suit the two of you. If you could collaborate and just advise me by email [Redacted] or text [Redacted] I will call in. Also Jane if possible could you set up a telephone link for us? I know that Julie is off next week so if we can make the discussion on Fri. that would be great.

The documents are only drafts and can be changed any way we want-I just wanted to give us a place to start.

Thank you both and I look forward to the call.

Bill Scott
