Re: 2012 California 33% RPS Compliance Report for Consolidated Edison Solutions, Inc. (Rulemaking 11-05-005)

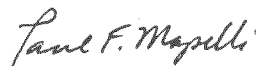

Dear Sir or Madam:

On behalf of Consolidated Edison Solutions, Inc. ("CES"), please accept this letter in lieu of the required Preliminary Annual 33% RPS Compliance Report due on December 28, 2012. Pursuant to Decision 12-06-038 all retail sellers of electricity must submit RPS Compliance Reports no later than 30 days after the date the Energy Division Staff issue a final version of the RPS Compliance Reporting template. By email dated November 16, 2012, Energy Division Staff notified parties that Annual RPS Compliance Reports were due by December 28, 2012.

CES is registered as an Electric Service Provider in the State of California (ESP #1382, registered January 17, 2012). On May 5, 2012, CES submitted its initial 2012 RPS Procurement Plan as required by the April 5, 2012 Assigned Commissioner's Ruling. In that filing, CES explained that it is a newly registered ESP in California, is still in the early stages of developing its business plans for the California market, currently does not serve retail customers in California, and has no immediate plans to begin serving customers in the near term. As a result CES explained that it has not undertaken specific RPS procurement activity.

These circumstances have not changed since the May 5 filing. CES does not serve load in California and has no RPS compliance obligations to report. Accordingly, please accept this letter in lieu of the Preliminary Annual 33% RPS Compliance Report.

Respectfully,

Paul Mapelli
Vice President and General Counsel
