

CYBERSECURITY

Cybersecurity, along with safety and reliability, form the foundation for reliable electricity service.

This discussion brings together individuals from across the electricity industry to discuss what cybersecurity is, what the current state of cybersecurity policies in the U.S. is, what the future of cybersecurity looks like, how the relationship between the state and federal governments will progress, and how the industry can move forward to avoid any major events.

Opening Remarks:

Commissioner Mike Florio

Panelists:

Commissioner Terry Jarrett, Missouri Public Service Commission

Tim Roxey, North American Electric Reliability Corporation

Steven Dougherty, IBM

James Sample, PG&E

Moderator:

Gary Ackerman, Executive Director

Western Power Trading Forum

Free and Open to the Public
