Sure, will do, Franz, just wanted to make sure us (worker bees) get the service list documents as soon as possible. We'll compile the list as you have suggested and send it to you by Monday.

Shilpa,

You are right--if you could simply put together a list of everybody at PG&E that you think should be on the OIR service list, AND the CEO and Gen Counsel, that would be great. We all know in practice that such inclusion is overkill and will filter down to you anyway, but that is what ALJ Mattson requested. I guess better safe than sorry?

So if you could send me a list of everybody—including yourself—that should be on the AB 1900 OIR service list, by the end of this week or early next week, I would appreciate it.

Thanks,

Franz

Franz, Laura,

Happy New Year to you both!! We look forward to seeing what you've put together for AB 1900.

I was somewhat surprised by the inclusion of the CEO and General Counsel on this list so I had to write (and hopefully Laura won't take offense). We have historically included the assigned attorney and our regulatory Case Manager on the service list, and then they are responsible for disseminating information within the company about the status of the case. These two leads ensure we meet deadlines and file comments appropriately coordinating with many stakeholders (including management) within the company.

Is there a change in practice at the CPUC to include the CEO and General Counsel? Just checking to make sure I haven't missed something.

Thanks Franz and take care.

Shilpa

Laura,

Happy New Year! We're going to issue an OIR as soon as next week for AB 1900 implementation and ALJ Mattson has requested the following people be included in the service list; I was wondering if you had that information?

Snail mail and e-mail contact information is not on your website for any of them.

Hyun Park

Senior Vice President and General Counsel

Anthony F. Earley, Jr.

Chairman, Chief Executive Officer, and President

Thanks,

Franz
