You may have missed this one, being way over there on the east coast. Interesting that it was a SOCK and not a cell phone, right?

Laura

## **Teen Driver Was Trying to Put on Sock When She Crashed, CHP Says**

By staff

Redding Record Searchlight, January 24, 2013

<http://www.redding.com/news/2013/jan/24/vehicle-crashes-power-pole-old-oregon-trail/>

A teen lost control of her car while she was trying to put on a sock, causing a crash that severed power to nearly 2,500 nearby residents today, authorities say.

Amy Wahl, 17, of Redding, was trying to put on a sock while she was behind the wheel this morning, said officers with the California Highway Patrol. She was driving southbound on Old Oregon Trail around 7 a.m. when she dropped the sock.

As she reached down to grab it, she lost control of her 2007 Honda Civic and ran off the east side of Old Oregon Trail near Lois Lane, officers said. She hit the guy wire of a power pole, breaking a conductor wire.

Officers said the Honda then went through a wooden fence and stopped after striking a parked Box Scraper construction vehicle. The crash pushed the box scraper into a parked sweeper, which then hit a front loader, all of which belongs to Tullis

Construction, officers said.

Around 2,500 homes and Bella Vista Elementary School lost power.

Bella Vista Elementary School closed for the day because of the outage, and around 2,490 other customers in the area lost power, said **Paul Moreno, a spokesman for Pacific Gas and Electric Co.**

District Secretary Suzanne Kofford said the more than 360 students went home for the whole day.

**Moreno** said power was restored for all but 19 of those customers around 8:30 a.m., and the rest had power returned around 1 p.m.

Wahl suffered a small cut to her leg, officers said.
