Subject: RE: Muni transfer

Thanks for asking. That's some bullshit -- but I think the clipper price is the same as the 10-ticket price. The muni kiosk folks, of course, don't know that there is no franker anymore. Maybe I should invest in a pocket dot matrix?

Yup, muni transfer only works with clipper, and clipper doesn't have the high-volume discount. Typical. So the book is only cheaper if you don't use muni. Ac transit transfers still work w/o the franker.

And yes, I'm getting back on the ferry right now.

I think to get your transfer you needed/will need to use your clipper card.
